

Drama Department Curriculum Statement

Intent

In Drama we strongly identify with all aspects of the English curriculum. Pupils are challenged to be creative thinkers who continue to develop their speaking and listening skills along with a wide range of social skills.

Implementation

We provide an environment that creates an outlet for pupils to demonstrate their creative and practical talents. Pupils are encouraged to develop their self-confidence, self-discipline and ability to co-operate with others through group work and performance. Pupils have a structured framework within which a positive, critical appraisal of other's work can develop. They can also evaluate their own progress, strengths and weaknesses.

Impact

Pupils are helped to make a positive contribution to the work of other departments, both in common topics and in cross curricular links.
