

# RE Year 9

## Objects of importance

Everyone possesses objects which are important and precious. For people who belong to a religion, these include some which are used every day whilst others are reserved for special occasions. Imagine your family is moving house. You have a special container for your four most precious objects [They might have some connection to religion or they might not].

Which four objects will you put into the container?

- one which is used daily
- one which is used weekly
- one personal object
- one which is used at a special time or festival

1. Design a poster (digital or otherwise) which shows the four objects.
2. Write a sentence for each one to explain what it is and how it is used.
